

Better teamwork increases  
your chance of success.

## Success Intelligence Team Build

*“Every new level of success requires a new level of partnership.”*

**Robert Holden Ph.D.**, from *Success Intelligence*

This very popular Masterclass has been used by global brands all over the world including Unilever, the BBC, The Body Shop, the Football Association, and Sony. Success Intelligence is based on the philosophy that “none of us are smarter than all of us.” One of our most popular S.I. mantras is, the results are in the relationships. We believe wholeheartedly that a commitment to partnership inspires to a new level of success. And therefore, teamwork is the key to personal success.

Our S.I. Team Build is usually presented as a one-day Masterclass that is made up of four modules. It is a very practical day, which features an S.I. audit, team challenges, performance reviews, and valuable pointers for creating a success-focussed culture. Here is a sample outline:

---

**Session 1    Success Audit                    9.00-10:30**

Welcome, introductions, and opening success exercise. Wordsmith: A high impact, interactive team challenge. Followed by feedback using our unique S.I. Team Audit.

---

**Session 2    Success Scorecard                10:50-12:30**

Success Review: What is Success? Success Timeline: Understanding the story of success. Success Scorecard: creating a vision for success.

---

**Session 3    Success Ethic                            1:30-3:00**

Using the Success Ethic for raising our performance. Using the Busyness Audit to achieve better results. Using the Value Filter to enjoy meaningful success.

---

**Session 4    Success Circles                        3:50-5:00**

Learning a team coaching model called Success Circles. Engaging in essential conversations for future success. Committing to individual and group actions for success. Finish and farewells.
